Professional Summary

CLOUD & DEVOPS ENGINEER | FULL-STACK DEVELOPER

Microsoft Azure Certified specialist (5x certifications) with a Civil Engineering background. I bring structured project management and systematic problem-solving to full-stack development, cloud architecture, and AI integration. I've built and deployed 5 React applications, including a Country Explorer with compare mode and an interactive AI chatbot trained on my CV. I'm proficient in React, Node.js, Azure services, and prompt engineering across multiple LLMs.

Technical Skills

- **Cloud & Devops:** Microsoft Azure (App Services, Virtual Machines, Networking, Storage, ARM Templates, IAM, Monitoring) • Azure DevOps (CI/CD Pipelines, YAML, Repos, Boards) • Infrastructure as Code (IaC) • Git • GitHub Actions • Netlify • cPanel
- **Development:** React • Node.js • PHP • .NET Fundamentals • HTML • CSS • JavaScript • WordPress • SQL • Database Design (RDBMS) • REST API Integration • VS Code
- **AI & Machine Learning:** Azure AI Fundamentals • Azure AI Services • Prompt Engineering (ChatGPT, Claude, Gemini, DeepSeek) • Google AI Studio • Perplexity • NotebookLM
- **Database Management:** MySQL • phpMyAdmin • SQL Querying • Database Design
- **Security & Quality Assurance:** Authentication/Authorization Protocols • Security Vulnerability Testing • Debugging • Quality Assurance • Risk Assessment
- **Documentation & Project Management:** Technical Documentation (PRDs, SOPs, Project Plans) • Agile/Waterfall • Quality Control • Research Methodology
- **Tools & Platforms:** VS Code • Azure Portal • GitHub • Netlify • cPanel • FileZilla • phpMyAdmin • Microsoft Office (Word, Excel, PowerPoint, OneDrive)
- **Soft Skills:** Technical Communication • Cross-Disciplinary Problem Solving • Leadership • Time Management • Critical Thinking • Research Analysis • Collaborative Development

Certifications

- **Microsoft Azure (5x Certified)**
  - DevOps Engineer Expert | 2025
  - Azure Developer Associate | 2025
  - Azure Administrator Associate | 2025
  - Azure AI Fundamentals | 2025
  - Azure Fundamentals | 2025
- **Web Development**
  - Advanced Web Development | SheCodes | 2024
  - Introduction to AI, Web Development & Coding | SheCodes | 2024
- **Database & Programming**
  - Introduction to Database Concepts | Alison | 2024
- **Engineering**
  - Diploma in Engineering Technology (Civil Engineering) | Durban University of Technology | 2021

Projects

- **Country Explorer** — React, REST Countries API
  - Search any country — flags, capitals, population, currency, languages. Compare two countries side by side.
  - Link: https://vcookie-country-dashboard.netlify.app
- **Dessert Generator** — JavaScript, Recipe API
  - Generate random dessert recipes.
  - Link: https://vcookie-dessert-recipe-generator.netlify.app
- **World Clock** — JavaScript, Moment.js, Timezone API
  - Track current time across multiple cities worldwide.
  - Link:https://vcookie-world-clock-project.netlify.app

- **Weather App** — React, OpenWeather API, Geolocation
  - Real-time weather data — temperature, humidity, wind speed, conditions.
  - Link: https://vcookie-weather-app.netlify.app
- **AI Assistant** — React, LLM, Prompt Engineering, RAG
  - Interactive chatbot trained on my CV. Answers questions about my skills, certifications, and experience.
  - Link: https://vcookie-portfolio.netlify.app

Professional Experience

Software Development Intern

Saints Media – Durban, South Africa *2025-2026*

- Developed and maintained dynamic web applications using React for front-end interfaces and Node.js/PHP for server-side logic
- Gained exposure to automated workflows using n8n to integrate applications and streamline business processes
- Practiced prompt engineering across multiple AI platforms including ChatGPT, Claude, Gemini, and DeepSeek
- Managed hosting environments through cPanel and Filezilla
- Designed and queried relational databases using MySQL with phpMyAdmin for efficient data management
- Implemented robust authentication and authorization protocols to secure user data
- Conducted systematic debugging and vulnerability assessments to identify security risks
- Authored technical documentation including PRDs, SOPs, and Project Plans

Site clerk

Chushisanani Mzansi – Durban, South Africa *2024*

- Managed workflows for stock intake/distribution and site documentation, optimizing operational efficiency
- Implemented tracking systems for materials and compliance documentation
- Processed invoices, payment requests, and prepared technical reports for stakeholder meetings

Project manager

Ijozilami Construction and Projects – Durban, South Africa *2022-2023*

- Led full project lifecycles from planning through execution, directly transferable to managing DevOps pipelines
- Coordinated multidisciplinary teams and vendors, developing strong cross-functional collaboration skills for agile environments
- Conducted risk assessments and quality control inspections, applying systematic engineering problem-solving

Sales representative

Mr Price Group (Sheet Street) – Durban, South Africa *2016-2020*

- Managed inventory systems and visual merchandising, developing attention to user experience and system optimization
- Handled stock administration and customer service operations, building client-facing communication skills

Education

Further Education and Training Certificate: Information Technology – Systems Development

Dynamic DNA – Durban, South Africa (Expected) *April 2026*

- Coursework: Programming Fundamentals, Object-Oriented Programming, Web Development, Algorithmic Structures, Validation Methodologies, Program Maintenance, Scripting Languages, Testing and Debugging

National Diploma: Civil Engineering

Durban University of Technology – Pietermaritzburg, South Africa *Graduated: 2021*

- Coursework: Structural Analysis, Fluid Mechanics, Geotechnical Engineering, Project Management, Quality Control, Site Inspection Protocols

N4 Certification: Mechanical Engineering

Umbilo Private Technical College – Durban, South Africa *Completed: 2017*

- Coursework: Mechanical Draughting, Mechanotechnics, Engineering Science, Engineering Mathematics
